CoolLED LED Drivers

CoolLED

CLK15 low voltage Up to 15W

350mA, 500mA and 700mA

CoolLED drivers provide a high performance solution for powering high-brightness LEDs from a mains supply.

The power factor corrected, class II driver has a fully isolated, SELV output delivering up to 15W of

The Driver employs new advanced circuitry, leading to a cost effective and efficient solution for low power installations. All CoolLED Drivers have a high efficiency design, which ensures cool operation and long life.

The high efficiency allows operation in 50°C ambient. The compact enclosure is available in Integral (B) and Remote Mount (C) versions. Remote types feature screwless cable clamps.

CoolLED Drivers are open and short-circuit protected and have self-resetting over temperature trip.

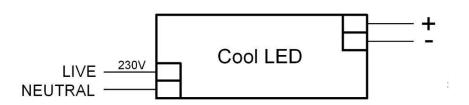

Consult the sales office for Conformal Coated, Potted, Hot-Plug and custom versions.
